4. Package Contents

- JTronic JT-4K07 Dash Camera (Main Unit)
- Rear Camera with Cable
- Inside Cabin Camera (Built-in)
- Car Charger (12V/24V)
- Mounting Bracket with Adhesive
- User Manual
- Optional GPS Module (if purchased separately)

5. Installation Guide

1. **Front Camera** – Attach the main unit to the windshield using the mounting bracket, ensuring a clear forward view.
2. **Rear Camera** – Mount the rear camera on the rear windshield and connect it to the main unit using the provided cable.
3. **Power Connection** – Plug the car charger into the vehicle's cigarette lighter socket, or use the optional hardwire kit for Parking Mode.
4. **GPS Module (Optional)** – Connect to the main unit if GPS tracking is required.
5. **Micro SD Card** – Insert a **Class 10 U3 card (up to 256 GB)** into the designated slot before use.

Check our website www.jtronic.ca for detailed installation video.

6. First-Time Setup

1. Power on the dash camera.
 2. Format the SD card within the camera settings.
 3. Adjust date, time, and resolution preferences.
 4. Connect to the **Viidure App** via Wi-Fi (iOS/Android) for advanced settings and video transfer.
- Check our website www.jtronic.ca for detailed installation video.

7. Menu & Functions

- **Resolution** – Select 4K front, 1080p rear, and 1080p inside recording.
- **Loop Recording** – Choose recording intervals (1, 3, 5 minutes).
- **G-Sensor Sensitivity** – Adjust to low, medium, or high impact detection.
- **Parking Mode** – Enable Time Lapse or Impact Detection.
- **Wi-Fi Settings** – Turn Wi-Fi on/off to connect with your smartphone.
- **Format SD Card** – Recommended every 15 days for smooth performance.

8. Wi-Fi & App Connection (Viidure)

1. Download **Viidure App** from App Store (iOS) or Google Play (Android).
2. Enable Wi-Fi on the dash camera.
3. Connect your phone to the dash camera's Wi-Fi network. **JT – 4K07 xxxxx**
4. Open the app to view video, playback recordings, download clips, and adjust settings.

Scan the QR code to download the application. Visit our website for detailed video.

9. Parking Monitor

- **Impact Detection** – Camera activates upon detecting vibration or collision.
- **Time Lapse Recording** – Captures at low frame rate, saving storage while monitoring.
(Requires hardwiring to vehicle battery for 24/7 operation.)

10. SD Card Recommendations

- Use **Class 10 U3 Micro SD cards** (up to 256 GB).
- Format the card within the camera every 15 days.
- Avoid low-speed cards to prevent recording issues.

11. Troubleshooting

- **Camera not powering on** → Check power cable and car socket.
- **Video not saving** → Ensure SD card is properly inserted and formatted.
- **Wi-Fi not connecting** → Restart both dash camera and smartphone, reconnect via app.
- **Blurry video** → Clean lens and ensure protective film is removed.

12. Safety Instructions

- Do not expose the camera to extreme heat or humidity.
- Use only recommended accessories and SD cards.
- Install securely to avoid obstruction of driver's view.
- Regularly back up important videos to external storage.

13. Specifications

- **Display:** 3.16-inch IPS HD Screen
- **Front Camera:** 4K UHD (3840×2160 @25fps)
- **Rear Camera:** 1080p @30fps

- **Inside Cabin Camera:** 1080p @25fps
- **Night Vision:** Enhanced IR with WDR
- **Wi-Fi:** Supported (Viidure App, iOS/Android)
- **G-Sensor:** Built-in, adjustable sensitivity
- **Storage:** Up to 256 GB Micro SD, Class 10 U3 required
- **GPS:** Optional external module
- **Power:** 12V/24V Car Charger or Hardwire Kit (for Parking Mode)

14. Warranty & Support

Your **JTronic JT-4K07** comes with a **180 days warranty** against manufacturing defects. Reach out to our reseller for warranty claims. Invoice copy required against warranty.
